

DOLBY DIGITAL®

Dolby Digital® T50-Basics

1. Connect the transmitter to the supplied power adapter
2. Connect the transmitter to your audio source via the 3.5 mm stereo input (this can be done using the included jack or RCA tulip cable)
3. Turn on the transmitter using the Power button
4. The headphones will automatically connect to the transmitter
5. Change the transmitter's channel using the button on the back
